## ABOUT US:

**XEENA INSTITUTE OF SKILL DEVELOPMENT** has been set up to promote the technological and professional institution of high standards and to encourage skill development training activities so that the students, conferred to the degree can not only the professional challenges but also all the challenges life has to offer confidently. In this era of economic liberalizations, globalizations and technological super advancement our effort is to put quality education in the light of tomorrow's vision of spreading education throughout the society.

**XEENA INSTITUTE OF SKILL DEVELOPMENT** has been setup in the year 2011 to promote the minimum quality education toward meritorious under privilege students.

## OUR MISSION:

1. To transform attitudes, values and priorities by changing mind set rejuvenating our learners and infuse positive energy to take the challenges of life.
2. To empower learners by providing best technical education coupled with leadership and professional skills.
3. To provide "Education for living and livelihood" as well as "Education for life", by focusing on the inculcation of human and moral values.
4. Enable students for deep learning, rational thinking and flair for entrepreneurship through industry institute interaction.

## OUR GOAL:

### WHAT WE PLAN TO ACHIEVE:

- A. **Reach:** Recruit and retain a diverse group of students from pre-school to university & post graduate level.
- B. **Values:** Continuously evaluate and increase the quality and relevance of academic content and performance standards in the core subjects for pre-school, grades 1 through 12 and university education. Enhance the quality of student life by providing professional development opportunities and promoting a sense of community among students.
- C. **Achievement:** Ensure that all students are performing at a standard level or higher. Ensure that the assignments are done correctly in the first instance. Ensure that all students are empower as per market demands.
- D. **Evaluation:** Ensure that all students receive the same standards-based evaluation, grades 1 through 12 and university education, also to ensure that a small number of exceptional needs for students must be addressed using appropriate alternative means to determine achievement and progress for all.
